

201-3130 Circuit Track Kit**Instruction: INS1069****Page 1 of 1**

It's now easier than ever to repair damaged circuits. Circuit Tracks are rectangular shaped conductors made of 99.9% pure CDA 11000 copper.

These rectangular ribbons closely conform to the original conductor dimensions. The replacement Circuit Track is bonded in place using prepackaged epoxy included in the kit.

This kit is a great time and labor-saver and an easy solution to repairing missing or damaged conductor traces and circuits.
